

## RESOLUTION SERIES

designed for outstanding sound quality and high SPL power handling

Using advanced speaker design techniques and premium quality materials, Peerless have produced an excellent two-way component driver system that achieves a detailed natural sound for your vehicle. Durable polymer cone with high exertion surround and low compression open ventilated voice coil motor achieves phenomenal sound quality at impressively high volume levels.

### WOOFER DETAILS:

Strengthened steel basket  
Mineral filled polymer cone  
Low compression design  
Ventilated aluminum voice coil  
Long exertion NBR rubber surround  
Long life materials and high SPL

### TWEETER DETAILS:

High Quality 1" Soft Dome tweeter  
Flush and Angle mounting options  
Multi-component 12dB crossover  
Brass terminals. Protection circuit  
Selectable 3 position attenuator  
Audiophile quality high-end extension
