## NEWS

**Date:** 03.21.2002

Audio Accessory Quarterly awards the Pickering EP-HiFi cartridge the Audio Excellence Award for best phono cartridge of the year.

### About Pickering

Pickering has its roots in the phonograph cartridge and styli industry as far back as 1947. Since that beginning, Pickering has been at the leading edge of technology and development in that industry. We are the world leaders in supplying quality products to the professional user in the broadcast studio and recording industry as well as the club and professional DJ. Pickering holds more patents, more industry firsts and more quality products than any other manufacturer in the world. Among some of these firsts are:

- 1948 The first microgroove phono cartridge
- 1950 The first column corner speaker
- 1951 The first audio and power control center
- 1954 The first customer replaceable stylus
- 1958 The first stereo cartridge
- 1975 The first four channel cartridge (CD-4)
- 1980 The first low impedance moving magnet cartridge
